TITLE OF INVENTION: SYSTEM AND METHOD FOR GENERATING AN ELECTRONIC MODEL FOR A DENTAL IMPRESSION HAVING A COMMON COORDINATE SYSTEM

| | APPLN. TYPE | SMALL ENTITY | ISSUE FEE DUE | PUBLICATION FEE DUE | PREV. PAID ISSUE FEE | TOTAL FEE(S) DUE | DATE DUE |
|---|----------------|--------------|---------------|---------------------|----------------------|------------------|------------|
| • | nonprovisional | NO | \$1510 | \$300 | \$0 | \$1810 | 06/22/2009 |

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 258 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 258 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Art Unit: 2123

DETAILED ACTION

1. The amendment filed 11/20/2008 has been received and considered. Claims 23,25, and 28-31 are presented for examination.

EXAMINER'S AMENDMENT

- 2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Brian Batzli (Registration # 32,960 at MERCHANT & GOULD P.C.) on 26th February at 3:15 p.m.
- 3. The application has been amended as follow:

Cancel Claim 8-22.

Claim 23 has been replaced with

- -- 23. A system for generating an electronic model of a dental study cast, the electronic model having a common coordinate system, the system comprising:
 - a base plate module configured to couple to a scanning device;
- a first scanning module configured to couple to the base plate module, the first scanning module being configured to position a first study cast of a first dental arch within the scanning device to generate a first electronic model of the first dental arch, the first scanning module including a first plurality of alignment spheres configured to be scanned by the scanning device;
- a second scanning module configured to position a second study cast of a second dental arch within the scanning device to generate a second electronic model of the second dental arch, the second scanning module including a second plurality of alignment spheres configured to be

Art Unit: 2123

scanned by the scanning device, the second scanning module being configured to couple selectively to the base plate module and to the first scanning module;

an articulator configured to couple to the first and second scanning modules to form a combined scanning apparatus, the articulator being configured to position the first scanning module relative to the second scanning module to orient an occlusal surface of the first study cast towards an occlusal surface of the second study cast; and

a data processing system configured to generate the electronic models corresponding to each of the dental arches within a common coordinate system, the data processing system being configured to obtain position data of at least one of the alignment spheres from the combined scanning apparatus, the data processing system also being configured to transform position data of the first electronic model and the second electronic model based on the position data obtained from the alignment sphere, whereby a composite electronic model in a common coordinate system is generated, the composite electronic model representing the teeth of the upper jaw and the teeth of the lower jaw of the patient.--

Allowable Subject Matter

- 4. Claim 23,25, and 28-31 are allowed.
- 5. The following is a statement of reasons for the indication of allowable subject matter:

While Hultgren et al. teaches a base plate module configured to couple to a scanning device, a first scanning module configured to couple to the base plate module, the first scanning module being configured to position a first study cast of a first dental arch within the scanning device to generate a first electronic model of the first dental arch, and a second scanning module configured to position a second study cast of a second dental arch within the scanning device to generate a second electronic model of the second dental arch, and Kim teaches an articulator configured to couple to the first and second scanning modules to form a combined scanning apparatus, the articulator being configured to position the first scanning module relative to the second scanning module to orient an occlusal surface of the first study cast towards an occlusal surface of the second study cast, generating the electronic models corresponding to each of the dental arches within a common coordinate system, nor the prior art of record discloses a method for modeling of a dental articulation, including:

Art Unit: 2123

(Claim 23) "...the first scanning module including a first plurality of alignment spheres configured to be scanned by the scanning device;...

the second scanning module including a second plurality of alignment spheres configured to be scanned by the scanning device,...

the data processing system being configured to obtain position data of at least one of the alignment spheres from the combined scanning apparatus, the data processing system also being configured to transform position data of the first electronic model and the second electronic model based on the position data obtained from the alignment sphere, whereby a composite electronic model in a common coordinate system is generated..."

(Claim 28) "scanning one of the alignment spheres within the combined scanning apparatus to obtain position data of the alignment sphere within the combined scanning apparatus; and transforming the scanned positional data of the first and second electronic models based at least in part on the position data of the alignment sphere within the combined scanning apparatus to generate a composite electronic model in a common coordinate system..."

in combination with the remaining elements and features of the claimed invention.

It is for these reasons that the applicant's invention defines over the prior art of record.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eunhee Kim whose telephone number is 571-272-2164. The examiner can normally be reached on 8:30am-5:00pm Monday to Friday.

Art Unit: 2123

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Rodriguez can be reached on 571-272-3753. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
